La CASA VERDE

We offer you a warm welcome to our little bit of Italy!!!

What does Italy mean to us? It's a source of inspiration, vibrancy, colour, and occasional chaos. Italy is a country we frequently visit as a family and have grown to love deeply. From the friends we've made to the restaurants we adore; Italy is where we relax and immerse ourselves in the unique culture and spirit that defines this beautiful country.

At La Casa verde, we strive to capture this same feeling. We want you to enjoy spending time here, in an informal atmosphere where the food is as eclectic and colourful as Italy itself. Our daily specials and seasonal menu reflect the dishes we love when we're away—simple, fresh, and flavourful, sometimes with a twist and sometimes without, always celebrating the beauty and taste of our second home, Italy.

Peter, Jo, Jack, Luca, Antonia, and Lucius

All of our food is freshly prepared including our own bread and speciality cakes.

All dishes are carefully made to order so please be patient when busy.

Whilst we can adapt our menu to cater for allergen and special dietary needs, please be aware we cannot guarantee certain requirements due to the nature of our small kitchen. Please speak to a member of staff about your requirements before ordering. Our kitchen does keep a vegan cheese alternative which may be substituted in any of the bruschetta or pizza's.

Our Outlook

We are fortunate to have ample space for a vegetable garden at Larch Cottage. Our dedicated gardeners work tirelessly year-round to plan, plant, and maintain the garden, ensuring a constant supply of fresh ingredients for our kitchen. Our chef collaborates closely with the gardeners, adapting the menu to make the most of the seasonal produce. From soups and chutneys to jams and tarts, nothing goes to waste.

Our commitment to sustainability extends to our daily work with our fish supplier, resulting in a menu that varies according to the daily catch.

We prioritize using recyclable, reusable, and compostable packaging and storage in both our restaurant and kitchen. Continuously seeking innovative products and methods, we aim to reduce our carbon footprint and stay ahead in sustainable practices.
