Our ethos is simple: we want to bring the Mediterranean to your table, offering a dining experience that is fresh, rustic, pure and rooted in tradition. Through every dish, detail and interaction, we strive to create an environment where food and hospitality come together to nourish not just the body, but the soul.

We are fortunate to have our own organic vegetable garden on site which serves the restaurant with fresh produce for much of the year. Our chefs collaborate closely with our gardeners, adapting the menu to make the most of the seasonal produce.

Allergen advice: Due to the way that our food is prepared it is not possible to guarantee the absence of allergens in our products
